

map Accelerator

powered by  Khan Academy

Differentiation in math simplified

To help teachers unlock learning gains for every student, NWEA® has partnered with Khan Academy® to develop MAP® Accelerator™. This powerful tool ties MAP Growth™ scores to personalized learning pathways so students get support tailored to their needs, whether on, above, or below grade level.

ENTIRE CLASS

PERSONALIZED
LEARNING PATHWAYS

Accelerate student outcomes

A recent study found students who used MAP Accelerator for at least 30 minutes per week had higher-than-expected performance gains on their MAP Growth math assessment.¹ Educators can monitor the impact of MAP Accelerator with comprehensive usage and performance analytics.

Empower teachers and students

Use real-time data to adjust student goals and differentiate instruction. With personalized goals and support, students stay engaged and take more ownership of their learning.

Get started quickly

Clever class rosters and MAP Growth scores are imported automatically, and learning pathways are generated based on the most up-to-date data so students can start learning right away.

Provide tailored support with the personalized math solution

Designed to replicate best practices from our most successful partner schools and districts, NWEA Solutions are recommended products and services activated together to help educators tackle common instructional challenges.

Led by MAP Accelerator, the Personalized Math Solution pairs this high-quality learning tool with guided implementation, professional learning, and expert-led data conversations with suggested next steps.
